Description

Parrot Minikit Neo

10 good reasons to choose the Minikit Neo

Control the MINIKIT Neo by voice:

Say the key word 'MINIKIT' at any time to trigger the voice recognition, and then say the name of the contact.

Connect two phones at once:

Thanks to the Switch function, you can use both phonebooks to make calls!

Great sound quality:

Digital Signal Processing allows a drastic reduction of noise and a strong echo cancellation.

Easy update:

Benefit from new features or change the language of your MINIKIT Neo by downloading new software versions for free.

Hours of conversation:

Enjoy six month of standby with Ultra Low Power Mode. The MINIKIT Neo will tell you the remaining battery time vocally upon request.

Simple pairing:

The MINIKIT Neo will vocally guide you through the entire pairing process. Once your phone is paired, the Bluetooth connection with the kit is absolutely automatic.

Automatically activated:

The kit integrates a vibration sensor to automatically switch on when you get in your car.

Listen to your music:

You can listen to all your music on your phone and benefit from the voice commands of your navigation app directly on your kit.

All your contacts on your kit: Synchronisation with your phonebook is automatic and all menus are vocal so you can stay focused on driving.

All these benefits are integrated in a compact and sleek design:

The integrated clipping system is compatible with all sun -visors and can be reversed easily with only one hand when you fold or unfold the sun visor.
